

**Do It
For You**
Service

**Making your life
that bit easier**

Since 2007, we've been dedicated to saving UK businesses the time, hassle and frustration of dealing with utilities.

As an HQP Partner, you can say goodbye to the endless calls, tedious waiting times and pushy sales conversations that come with switching utilities.

Saving time and hassle on our Do It For You service

We know how frustrating energy renewals can be. That's why we've created our Do It For You service, so you never have to deal with them again. We'll handle the whole process for you.

Great prices without lifting a finger. We do all the work for you, everytime.

Never deal with energy renewals again.

You choose. We deliver. We find the right contract based on your needs

Bill checks to ensure you're never overpaying

Your bills will be checked when you first take out your contract with us and on a monthly basis, to ensure you're being charged correctly.

Giving back to the environment with 'clean' energy

We have suppliers who only supply green energy and will either beat or meet the price of brown energy. So, if you want to help save the environment, you can do this without having to pay over the odds.

Personal service

If you're coming up for renewal but aren't sure about the

process, we'd love to visit you to run through it all. We'll explain the process, share our expertise and ensure you find the right contract.

Keeping you on top of the energy market

We hold webinars to give you more understanding of the energy market and how to save energy and money.

Join us

You can join the HQP portfolio immediately, no matter how long your contracts have left to run, just give us a call.
